Quiet yet powerful performance with superior convenience.
Convenience options

Enjoy your new Overhead Door® garage door opener to the fullest with optional accessories. These accessories work with openers that feature our CodeDodger® access security system.

Digital wireless keypad
Lighted keypad features a flip up cover and lets you control up to three garage door openers. Flip up cover is available in four colors, ensuring you can find the one that best complements your home.

Battery Back-up†
Front facing colored LEDs indicate charge status. Up to 50 cycles in a 24-hour period after initial power outage. Operates door at 3.5 inches per second.

Door Report™ Remote§
Beeps and flashes green when garage door closes properly. Gives warning tone and flashes red when door does not close properly.

Advanced Wall Console§
Easy to use backlit LCD touch screen Sure-Lock™ control feature to lock out remote and keypad operation for increased security. Operates up to three garage door openers.

6' power cord
When you need a few extra feet of power cord; we have a model with a 6' power cord rather than the standard 4' cord (Model 7030H).

† These accessories are only available for use with Odyssey® and Destiny® garage door openers.
§ The Overhead Door® Network Adapter is required for operation of the Door Report Remote and Advanced Wall Console.

Standard features

DC power
Powerful 3/4 Hpc* DC motor operates with minimal noise.

Quiet operation
Belt and chain drive provide smooth and quiet operation, perfect for room adjacent garages that demand minimal noise. Belt drive offers the ultimate in quiet operation.

CodeDodger® access security system
The latest in CodeDodger® technology that selects a code from billions of combinations each time a remote or wireless keypad are used. Prevents piracy of the radio signal for the utmost in security.

Auto seek dual frequency range
The opener listens for both the 315 or 390 MHz frequency emitted by the remote or wireless keypad, allowing reliable operation even in areas with frequency interference.

DoorDetect™ monitoring and diagnostic system
Delivers the optimal amount of power needed to efficiently and smoothly open even the heaviest doors. Stops the door when abnormal operation is detected for additional safety.

Self-diagnostic Safe-T-Beam® system
When objects pass through the infrared beam, the door automatically stops closing and then reverses.

Two-bulb lighting system
Two 100 Watt bulb lighting system provides added safety and convenience.

Compatible with both HomeLink® and Car2U® systems

For use with residential sectional doors up to 14 ft high and one-piece doors up to 8 ft high.

• Powerful: 3/4 Hpc* DC motor operates most residential doors at a speed of up to 7.5 inches per second.***
• Quiet: Belt and chain provide smooth and quiet operation.
• Bright Lighting: Two-bulb lighting system provides added security and convenience.

7030/7030H
